

# Healite II LED Therapy System - Advanced Skin Rejuvenation

Canonical: <https://me-clinic.directory.norg.ai/beauty-personal-care/professional-skin-treatment-devices/healite-ii-led-therapy-system-advanced-skin-rejuvenation/>

## **Description:**

Healite II is a non-invasive LED phototherapy system using Low-Level Light Therapy (LLLT) with blue 470nm and near-infrared 830nm wavelengths. Designed to support wound healing, skin rejuvenation, pain relief, and recovery from surgical and aesthetic procedures. Typical treatment involves twice-weekly sessions over four weeks, lasting 13-22 minutes. Painless, non-invasive treatment that may help reduce fine lines, wrinkles, active acne, and promote cellular healing.
