

Brow Lift Surgery - Smooth Forehead Wrinkles & Lift Eyebrows

Canonical: <https://me-clinic.directory.norg.ai/health-beauty-services/cosmetic-plastic-surgery/brow-lift-surgery-smooth-forehead-wrinkles-lift-eyebrows/>

Description:

A brow lift (forehead lift) is a surgical procedure designed to raise sagging eyebrows, smooth forehead wrinkles, and reduce frown lines for a more youthful and refreshed appearance. Me Clinic offers multiple brow lift techniques including endoscopic, temporal, traditional, and direct approaches. The procedure addresses deep frown lines, forehead creases, and drooping brows caused by aging and gravity. Results typically last 10-15 years. Contact Me Clinic to book a consultation with experienced plastic surgeons.
