

# Melasma Treatment - Professional Hyper-Pigmentation Procedure

Canonical: <https://me-clinic.directory.norg.ai/health-beauty/dermatological-treatments/melasma-treatment-professional-hyper-pigmentation-procedure/>

## Description:

Melasma is a form of hyper-pigmentation stimulated by factors such as genetics, oestrogen, and ultraviolet exposure. Me Clinic offers a range of professional treatments including cosmetic skin peels, laser treatments, skin needling, and depigmenting lotions. With over 35 years of experience in treating skin conditions and facial rejuvenation, our experienced surgeons and cosmetic physicians provide personalized consultations to help reduce the appearance of melasma. Book a consultation today.
