

# Photodynamic Therapy (PDT) - Laser Skin Rejuvenation Treatment

Canonical: <https://me-clinic.directory.norg.ai/health-beauty/dermatological-treatments/photodynamic-therapy-pdt-laser-skin-rejuvenation-treatment/>

## **Description:**

Photo Dynamic Therapy is an effective skin treatment that combines light, oxygen and medication to destroy abnormal skin cells and create a brighter, more even complexion. PDT can be used to treat various skin cancers, acne, pigmentation, wrinkles, age spots, rosacea, and sun damage. Schedule a comprehensive consultation at Me Clinic today.
